

ASODI ROHITH REDDY

AI-Led Marketing · AI Search (GEO / AEO)

Hyderabad, India | +91 93989 42390 | rohithreddyasodi@gmail.com | github.com/Stairexe | linkedin.com/in/rohithreddyasodi |

Open to Remote, Async (10–20h/wk)

SUMMARY

BBA student minoring in AI & Data Science (9.11/10 CGPA) specializing in AI search visibility (GEO/AEO) and AI-driven growth. Built a 5-engine GEO audit tool evaluating page citability, an LLM evaluation system verifying content grounding, and a student utility with **50+ organic active users**. Seeking a remote AI marketing, GEO, or growth internship.

EDUCATION & CERTIFICATION

ICFAI Business School (IBS), Hyderabad

2025 – 2028 · Hyderabad, India

Bachelor of Business Administration (BBA), Minor in AI & Data Science · **CGPA: 9.11 / 10**

Claude 101 Certification — Anthropic

2026 · HubSpot Inbound & Google Analytics in progress

SELECTED AI & MARKETING PROJECTS

Crawlspace — GEO & AI Search Audit Engine

github.com/Stairexe/crawlspace · Sept 2026

Next.js 15 TypeScript GEO / AEO · crawlspace-geo.vercel.app

- Engineered an AI-citability audit engine scoring pages across **5 distinct AI engines** (AI Overviews, ChatGPT, Perplexity, Claude, Copilot); isolates divergent engine requirements instead of relying on a blended score.
- Built block-level extractability scoring rating passages on self-containment, answer directness, factual density, and assistant liftability.
- Resolves crawler policy against **12 AI bot user agents** (GPTBot, PerplexityBot, ClaudeBot); caps visibility score on blocked engines.

Rubric — AI Writing Evaluation Coach

rubric-ielts.vercel.app · Aug 2026

React 19 TypeScript Cloudflare Workers Gemini

- Built a verification system for AI-assisted writing that scores essays against published criteria and enforces verbatim span citation.
- Directly addresses high-volume AI content operations: verifying factual accuracy and source grounding (**15 cited observations across 4 criteria with 0 ungrounded claims**).

IBS Timetable — Student Utility App

ibs-timetable.vercel.app · Jul 2026 – Present

JavaScript HTML/CSS Vercel

- Built a mobile-first scheduling utility replacing fragmented PDFs with interactive timetables, CGPA calculators, and exam trackers.
- Achieved 100% organic adoption across **50+ active student users** via campus word-of-mouth by solving an acute user friction point.

Star Creative Studios — Concept Web Studio & GTM Landing Pages

starcreativestudios.vercel.app · 2026

- Designed conversion-oriented concept landing pages with defined service tiers, enquiry-flow architectures, and CTA optimization (Star Spaces UAE luxury interiors, StarPay fintech SaaS dashboard). Self-directed concept work.

EXPERIENCE

PR & Research — IBS Hyderabad Placement Cell

Sept 2026 – Present · Hyderabad, India

- Lead corporate outreach campaigns, target company research, and messaging strategy for campus placement initiatives.

MARKETING & TECHNICAL SKILLS

AI Search & GEO:	Generative Engine Optimization (GEO/AEO), AI crawler management (GPTBot, ClaudeBot, PerplexityBot), llms.txt, JSON-LD, on-page SEO
AI & Content Ops:	Claude, ChatGPT, Gemini, prompt engineering for research/drafting, AI output verification, fact-checking workflows
Growth & Conversion:	Value proposition framing, landing page copy, conversion funnel design, user research, enquiry-flow optimization
