## AI Product · Founder's Office

Hyderabad, India | +91 93989 42390 | [rohithreddyasodi@gmail.com](mailto:rohithreddyasodi@gmail.com) | [github.com/Stairexe](https://github.com/Stairexe) | [linkedin.com/in/rohithreddyasodi](https://linkedin.com/in/rohithreddyasodi) |

Open to Remote, Async (10–20h/wk)

### SUMMARY

BBA student minoring in AI & Data Science (9.11/10 CGPA). I build and ship AI-backed web products—a student utility with **50+ organic active users**, a multi-engine GEO audit system, and an LLM evaluation coach that discards ungrounded model claims. Seeking a remote AI product or founder's office internship.

### EDUCATION & CERTIFICATION

#### ICFAI Business School (IBS), Hyderabad

2025 – 2028 · Hyderabad, India

Bachelor of Business Administration (BBA), Minor in AI & Data Science · **CGPA: 9.11 / 10**

#### Claude 101 Certification — Anthropic

2026

### SELECTED AI & WEB PRODUCTS

#### IBS Timetable — Student Utility App

[ibs-timetable.vercel.app](https://ibs-timetable.vercel.app) · Jul 2026 – Present

JavaScript HTML/CSS Vercel

- Replaced fragmented PDF lookups with a mobile-first web app featuring interactive section timetables, attendance trackers, CGPA calculators, and exam schedules.
- Achieved organic adoption across **50+ active student users** via word-of-mouth with zero marketing budget; independently designed, engineered, and shipped solo.

#### Rubric — AI Writing Evaluation Coach

[rubric-ielts.vercel.app](https://rubric-ielts.vercel.app) · Aug 2026

React 19 TypeScript Cloudflare Workers + D1 Gemini Groq

- Engineered an automated essay evaluation system that grades against official band criteria and forces models to cite verbatim text spans; **automatically discards ungrounded claims**.
- Benchmarked against plain LLM prompting with a strict kill-criterion: test returned **15 cited observations across 4 criteria with zero hallucinations**.
- Architected secure serverless Cloudflare Workers + D1 backend with per-user quotas, rate limiting, and server-side key protection.

#### Crawlspacex — GEO & AI Search Audit Engine

[github.com/Stairexe/crawlspacex](https://github.com/Stairexe/crawlspacex) · Sept 2026

Next.js 15 TypeScript GEO / AEO · [crawlspacex-geo.vercel.app](https://crawlspacex-geo.vercel.app)

- Scores page AI-citability across **5 distinct engines** (AI Overviews, ChatGPT, Perplexity, Claude, Copilot); highlights divergence rather than masking it in one blended score.
- Developed a block-level extractability scorer rating paragraphs on self-containment, answer directness, factual density, and assistant liftability.
- Parses and tests robots.txt policies against **12 AI crawler user agents**; operates client-side with zero external database or API dependencies.

#### Star Creative Studios — Concept Web Studio

[starcreativestudios.vercel.app](https://starcreativestudios.vercel.app) · 2026

- Built independent brand showcasing concept products: StarPay (fintech SaaS dashboard), Star Spaces UAE (luxury interiors with enquiry-flow architecture), and STAR E-Commerce. Self-directed concept work.

### EXPERIENCE

#### PR & Research — IBS Hyderabad Placement Cell

Sept 2026 – Present · Hyderabad, India

- Lead company research, outreach initiatives, and corporate communications for the BBA campus placement cell.
